MOUNT VERNON. Before beginning his sermon on Sunday the Rev. Charles S. Lane, pastor of the Presbyterian Church at Mount Vernon, said: "I want to first speak of a matter which is of special public interest, and which has to do with the welfare of every man, woman and child in this city. You know what the conditionthe moral condition-of our community has been in the last two years. It is hardly necessary for me to direct your attention to the fact that our Excise Board has not only reduced the fees for licenses to liquor dealers, but it has increased the number of liquor shops, and has sacrificed the confidence of the people, who were given to understand that they could effect an improvement. It is the fact that one mem-ber of the Excise Board has been tried before the Mayor upon the charges of drunkenness and malfeasance in office. Being found guilty, the case was sent to the Governor of the State, with the recommendation that the Commissioner be removed from office. It is common report that the friends of this Commissioner boast that the Governor will be urged not to approve the Mayor's action. This doubt ought not to exist, and that the Governor may know what is the feeling of the people on this matter, petitionbeing circulated requesting the Governor to act in this case in the interest of the people. I care not in this case in the interest of the people. I care not whether a man be a Democrat or Republican or what, if he is found to be unworthy, as tals mint seems to be, he should be removed at once, "similar references were made by the ministers of some of the other churches, and the petitions were circulated for signatures after the close of the service.
